CLERK: Read LB602

PRESIDENT: Chair recognizes Senator Carpenter.

SENATOR CARPENTER: Senator Marsh who had to go to the University asked to have me handle the bill for her. This bill was heard before the Miscellaneous Subjects Committee and at one time it was controversial. Since that time a great deal of work has

been brought about and was settled by the compromise in which the bill was amended to provide for a public building safety advisory committee. This would publicate uniform standards and specifications, she will have the power to waive full compliance when such standard is impractical. It is my understanding that those people who were opposed are now in agreement providing that this amendment is in the bill and it had to do with the remodelling of old and new buildings. As it was before it was rather free in its application. Many people were confronted with the problem that they couldn't solve so they formed the board which has the power to make the final determination.

PRESIDENT: Is there further discussion of the committee amendments to LB602? Question is then shall LB602 committee amendments be adopted as explained by Senator Carpenter. All those in favor of the amendments say aye, those opposed say no. Ayes have it so ordered. The committee amendments are adopted. Are there other amendments to the bill?

PRESIDENT: Alright, Senator Carpenter, back to you.

SENATOR CARPENTER: I move that the bill as amended be advanced to E & R for Initial.

PRESIDENT: Is there need for further discussion of the bill? Then the question is shall LB602 as amended be advanced from General File to E & R Initial.
